

Killin Youth Project Update

Now that summer sessions are over, everyone is back to school and the weather is turning colder we are settling into our new term time activity sessions. As always, we start our new block with a catch up and planning session. Killin Youth Project is a person led and so our young people take charge of the design and planning of sessions and work together to plan upcoming activities. The creativity and imagination this year is outstanding, and we have a lot of amazing activities to look forward to. We also welcomed our new P6 group to the project and they are settling in brilliantly and enjoying coming to sessions and being part of the team.

The senior group this year is a large group and so our older seniors are taking on some community projects this year and are excited to get started. With our focus on connection within the community this is going to be a brilliant year for them to build on projects undertaken last year and continue to do amazing things within the community. They are, of course, holding the annual Burns Supper, a big achievement for them last year, hosting teas and coffees at the Christmas fayre, joining the Killin 2025 video team to document Killin throughout the year and working on plans for a community garden with Killin Sports and Recreation Hub. We are so proud of the wonderful young people they are, and I am sure they will pick up any other community projects as the year unfolds.

As we are just at the beginning of our session block, we thought this would be a great update to share pictures from our summer sessions.

Youth group sessions are every Wednesday evening Juniors 5.45pm-7.15pm and seniors 7.30pm-9pm. Registration is essential, and all information can be found on our Facebook page.

As always it cannot be highlighted enough how thankful we are for our Youth Work Volunteers and the work they do and welcome 2 new volunteers to the project. If you are interested in volunteering no matter how little time you can give or if you would like to find out more about us and what we do then contact:
